Responsible

-2

TECHNOLOGY

Zero Day

A previously undocumented vulnerability. Using it is effective, although it could be exploited by other less responsible actors in the future.

Effective

3

Responsible

0

TECHNOLOGY

Clandestine Technology

Air-gapped or hardened networks can be accessed by installing bespoke technology on the network using clandestine techniques.

Effective

3

Responsible

1

INTELLIGENCE

Communications Interception

By compromising the servers of target communications providers, it is possible to intercept messages.

Effective

2

Responsible

0

GOVERNANCE

Ministerial Approval

Your operation is accountable to the Secretary of State for Foreign, Commonwealth and Development Affairs, and the Secretary of State for Defence.

Effective

0

Responsible

1

INTELLIGENCE

Partners

Working with international and other government partners increases the amount of knowledge available on a target.

Effective

Action Cards**

INTELLIGENCE

Signals Intelligence

Intelligence agencies routinely collect intelligence through the internet to protect national security, detect and prevent serious crime, and preserve economic wellbeing.

Effective

2

Responsible

1

TECHNOLOGY

Code Injection

Some websites or services will run any code that is passed in by a user. This can be used to compromise or break a target system.

Effective

2

Responsible

1

INTELLIGENCE

Public Records

Public records can contain vital intelligence, if you look closely enough.

Effective

0

Responsible

1

GOVERNANCE

Risk Management

A strong risk management framework minimises the likelihood of unintended consequences and increases precision.
